PROFILE

- Marketing Ops specialist focused on CRM and automation, with direct experience in B2B industrial environments spanning CRM migration, marketing automation, and commercial performance management.
- Five years of experience in content strategy and performance management, using analytics daily to guide decision-making.

PROFESSIONAL EXPERIENCE

Marketing Ops & CRM Specialist — Freelance: J.Lanfranco Fastener Systems Inc.

Sep 2025 – Mar 2026

- Developed email campaigns through Zoho, tracking open rates, adapting content to ICP profiles, and maintaining MQL lists. Built automations to improve repetitive workflow efficiency, saving time and letting the team focus more on the customer while updates and messages ran in the background. Used Zoho to design and manage trade-show-specific landing pages accessed via QR code for interested clients.
- Conceived and managed a resource page housing case studies, company news, and product catalogues, increasing website traffic and product knowledge accessibility. Product-specific keyword searches increased by 43%, and sales teams reported customers arriving better informed on product benefits over generic versions.
- Managed LinkedIn accounts — developing and executing strategy, building dashboards and tracking analytics, creating content, and translating technical information into infographics and other short-form targeted content. Using organic content only, LinkedIn followers grew 85% in 5 months.

Marketing and Sales Assistant — Permanent Contract: J.Lanfranco Fastener Systems Inc.

May 2019 – May 2023

- Led a branch-wide CRM migration to Pipedrive — first learning the system before presenting it to management, then training the team and providing ongoing support through the transition, finding solutions for any reluctance. Result: improved follow-up times, fewer lost quotes, and full daily adoption reported across the sales team.
- Created digital and traditional content for sales teams and marketing campaigns, including social media posts, videos, case studies, paid ads, website banners, trade show displays and backdrops, standing banners, catalogues, magazine ads, and team/event photography. Ensured consistent, recognizable branding across every channel and format.
- Managed targeted LinkedIn paid campaigns on a \$2,000 CAD budget, increasing brand awareness and generating new prospect lists for the sales team.

EDUCATION
