Marketing graduate (Bac+5) of Politecnico di Milano in omnichannel and consumer analytics, with five years marketing high-value technical products in North America. I keep a brand's image consistent across every touchpoint, turn business needs into tools teams genuinely adopt, and build recommendations from client data and journeys. Rigorous, detail-driven and autonomous, at ease across teams and cultures in French, English and Russian, with a deep sensitivity to craftsmanship, heritage and the art of hospitality.
