WHAT I CAN DO FOR YOUR TEAM

Your customers get one brand and one experience, whatever the channel.

Channels that tell different stories	I map the customer journey across social media, email, CRM and e-commerce, and align the message at every touchpoint.
Client data that sits unused	I turn it into segments, personas and next steps your marketing and sales teams can act on.
A social presence that isn't growing	I build a content plan people want to follow: **+85% LinkedIn followers** in five months, organic only.
